	TION OF SUBJECT						
Int.Cl7	A61K31/375,	31/19,	7/48,	7/00,	A61P17/16,	43/00,	A23L1/302,
	A23K1/16						

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Int.Cl<sup>7</sup> A61K31/375, 31/19, 7/48, 7/00, A61P17/16, 43/00, A23L1/302, A23K1/16

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
REGISTRY (STN), CAPLUS (STN)

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	WO 2003/028744 Al (Kabushiki Kaisha Hayashibara Seibutsu Kagaku Kenkyujo), 10 April, 2003 (10.04.03), Full text; particularly, Claims; experimental examples 1 to 6; examples 1 to 8 & JP 2003-171290 A & EP 1438964 Al & KR 2004048371 A	1-15
Y	JP 2000-136109 A (L'Oreal), 16 May, 2000 (16.05.00), Full text; particularly, Claims; examples & EP 989111 A1 & FR 2783517 A & US 2002/0086041 A1	1-15

$\boxtimes$	Further documents are listed in the continuation of Box C.		See patent family annex.		
"A"	Special categories of cited documents: document defining the general state of the art which is not considered to be of particular relevance	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention		
-	"E" earlier application or patent but published on or after the international filing date  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means document published prior to the international filing date but later than the priority date claimed		"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone		
			document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art		
"P"					
		"&" ———	document member of the same patent family		
Date of the actual completion of the international search 01 December, 2004 (01.12.04)		Date	of mailing of the international search report 21 December, 2004 (21.12.04)		
Name and mailing address of the ISA/ Japanese Patent Office		Authorized officer			
Facsimile No.			phone No.

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/014591

Box No. II Observa	ations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This international search re	eport has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
because they rela	ate to subject matter not required to be searched by this Authority, namely:
2. Claims Nos.: because they rela extent that no me	te to parts of the international application that do not comply with the prescribed requirements to such an eaningful international search can be carried out, specifically:
3. Claims Nos.:	
	dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box No. III Observa	tions where unity of invention is lacking (Continuation of item 3 of first sheet)
enhancer conta active ingredito a method of The only one materials and, Such being the between the invone or more of these groups of these groups of the As all required ad claims.  2. As all searchable of any additional fee.  3. As only some of the active and the active active and the active active and the active active active and the active	echnical feature of claims 1 to 15 relates to a collagen production sining L-ascorbic acid and/or its analog and fatty acids as the ents, while the special technical feature of claim 16 relates separating fatty acids from fresh royal jelly.  matter common to them is "fatty acids" which are well known therefore, cannot be considered as a special technical feature. e case, it does not appear that there is a technical relationship rentions of claims 1 to 15 and the invention of claim 16 involving the same or corresponding special technical features. Thus, of inventions (continued to extra sheet)  ditional search fees were timely paid by the applicant, this international search report covers all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of the required additional search fees were timely paid by the applicant, this international search report covers for which fees were paid, specifically claims Nos.:
No required addit	tional search fees were timely paid by the applicant. Consequently, this international search report is
restricted to the ir	envention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest	The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.

## INTERNATIONAL SEARCH REPORT

International application No. PCT/JP2004/014591

Continuation of Box No.III of continuation of first sheet(2)

are not considered as being so linked as to form a single general inventive concept.

Thus, claims 1 to 16 do not comply with the requirement of unity of invention.
